

On behalf of K-Love, let me tell you that it is one of the only stations I feel like I can safely listen to with my family. I have other friends and family members who agree that we depend on klove being broadcasted, so that we can enjoy music without compromising our values. This is something that I think that many in Oklahoma City and surrounding cities benefit from klove. There is always something positive said or played and I wouldn't want my family to be without that option on the radio.

Thank you for your regard

John Evans
